

TIMEWIZARD

MANUAL

This manual is obviously not the one that I would put here if this was the real FAQ-site of the company I work for.

I just got hired a couple of months ago and the software developed at work doesn't have a FAQ. So I made this one as a start...

If the boss likes it, I will rebrand it and rename it to the actual company name and I have collected so many questions to put in here .. and I have written so many manuals to put in here to. So I will do that.

But for now – you have to look at it first dear tutors. ...And you don't need to see my manuals –you just need to know that I can put them here if I want to.

Besides—the manuals is in Swedish... and so are the questions....

Kind Regards!

/Petra
